Professional Summary

Software Development Engineer with **2+ years of professional experience** building production web applications using **React.js, JavaScript, and modern frontend technologies**. Experienced in responsive interfaces, reusable UI components, administrative dashboards, API-integrated workflows, and client-facing applications. Delivered production systems for international clients across **logistics, construction, telematics, energy, and automotive** domains.

Experience

InstaDataHelp AI Services Private Limited

Feb 2025 – Aug 2026

Software Development Engineer 1 (SDE-1)

Remote

- **Engineered** production web applications using React.js, JavaScript, HTML, CSS, and Tailwind CSS, developing responsive interfaces and reusable UI components.
- **Developed** user-facing features and integrated REST APIs into frontend workflows across multiple client-facing applications.
- **Delivered** frontend solutions for real-world client projects including ASAS Group, Technauto, and ANPCPMC, adapting interfaces to business requirements and deadlines.
- **Implemented** AI-assisted development workflows and contributed to frontend integration of AI-enabled application features.
- **Performed** testing, debugging, deployment, and production maintenance across client applications.

InstaDataHelp AI Services Private Limited

Aug 2024 – Feb 2025

Software Developer Trainee

Remote

- **Developed** web application interfaces using React.js, JavaScript, HTML, and CSS during a six-month software development training program.
- **Contributed** to UI implementation, debugging, testing, and modern frontend development workflows on live client projects.

Projects

Bid Comparison & BOQ Validation Platform — ANPCPMC

bid-app.vercel.app

React.js, JavaScript, Tailwind CSS, SheetJS, ExcelJS

- **Engineered** a production BOQ comparison platform for a Bangalore-based construction/PMC client, automating validation and comparison of an estimate with **up to 7 contractor bids across Civil and MEP workflows**.
- **Automated** Excel parsing, BOQ mismatch detection, variance analysis, L1 bidder identification, and formatted comparative-statement generation, **reducing manual error rates by 90%**.

Horizon Hauliers & Horizon Energies — ASAS Group

horizon.co.zm | energies.horizon.co.zm

React.js, Tailwind CSS, JavaScript, Super Admin, cPanel

- **Architected and developed** two production websites for ASAS Group's logistics and energy businesses, with approximately **5–6 pages per website**.
- **Built** the complete frontend and centralized Super Admin panel for managing galleries, job openings, and website content, and **deployed** the applications through cPanel.

FleetSync — Telematics Dashboard — Technauto

fleet-sync.vercel.app

React.js, Vite, Tailwind CSS, Framer Motion, Sanity CMS

- **Developed** a React-based product platform for Technauto, a Dubai-based fleet telematics company, covering GPS/IoT products and fleet-management solutions.
- **Built** responsive product catalogs, detail pages, dashboards, and CMS-driven content workflows using React.js, Tailwind CSS, Framer Motion, and Sanity CMS.

Car Buddy — Interactive Car Manual Application

React.js, JavaScript, Web, Tablet & In-Vehicle Interfaces

- **Developed** React-based interfaces for an interactive car-manual application, enabling users to browse vehicle information and interact with a conversational chatbot.
- **Adapted and refined** frontend workflows for web, tablet, and in-vehicle display environments, resolving React/UI issues and improving cross-platform usability.
- Contributed to the application associated with the patented invention “A Method to Build an Interactive Car User Manual.”

Technical Skills

Programming Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Tailwind CSS, Redux, Material UI

Tools: Git, GitHub, cPanel, PM2, Firebase, Sanity CMS

Education

Indira Gandhi National Open University (IGNOU)

Master of Computer Applications (MCA), Computer Science

Sep 2025 – Present

Delhi

Jagannath Institute of Management Sciences (JIMS)

Bachelor of Computer Applications (BCA)

2021 – 2024

Delhi | CGPA: 7.21
